

Adarsh Darokar

Bhopal, Madhya Pradesh | +91 9303128970 | adarshdarokar55@gmail.com | [LinkedIn](#) | [GitHub](#)

Software Engineer skilled in **React.js, React Native, Node.js, Express.js, Python, Django, MongoDB, REST APIs, Docker, AWS, Microservices, Claude Code, OpenAI Codex, and GitHub Copilot**. Experienced in building scalable **full stack, mobile, and AI powered applications** with hands-on expertise in leveraging AI coding tools to accelerate development, automate workflows, optimize debugging, and improve software productivity. Passionate about creating **production-ready solutions** with clean architecture, modern development practices, and practical problem solving.

Experience

Sheriyans Coding School

Bhopal, MP

Full Stack Developer Intern (6 Months)

2025

- Contributed to the development of a Job Portal using Python, Django, DRF, and React.js. Developed REST APIs, implemented JWT authentication and role-based access control, and worked on job posting, application management, dashboard features, and frontend-backend integration.
- Collaborated in building scalable and maintainable application modules while following clean coding practices and project requirements.

Freelance Project

Remote

Full Stack Developer (3-Members Team)

2026

- Worked in a 3-member team to develop Builder AI – an AI-powered application builder using React.js, Django, and MongoDB. Contributed to frontend development, AI integration, real-time chat functionality, and API integration while collaborating closely with the backend team to deliver a seamless user experience.

Technical Skills

Languages: Python, JavaScript (ES6+), TypeScript

Frontend: React.js, Redux, GSAP, Material UI, Lenis, Tailwind CSS

Backend: Node.js, Express.js, Python, Django

DevOps / Cloud: AWS (EC2, ECS, ECR, S3), Docker, CI/CD

Generative AI: OpenAI APIs, LangChain, LangGraph, RAG, Prompt Engineering

Databases: MongoDB, Redis, PostgreSQL

Testing: Postman, Jest

Tools: Git, GitHub, Render, Vercel, GitHub Copilot, Claude Code

Projects

Web-Unwrapper [\[GitHub\]](#) [\[Live\]](#)

2026

Built an AI-powered website analysis platform using React, TypeScript, Supabase, and Tailwind CSS for SEO, performance, accessibility, and tech stack analysis. Implemented AI-driven recommendations to guide optimization strategies and boost performance. Engineered secure user authentication, interactive history logs, PDF report exporting, and subscription management within a highly responsive, modern dashboard.

Devin AI – Your Own Developer [\[GitHub\]](#) [\[Live\]](#)

2026

Developed an autonomous AI coding assistant featuring real-time code generation, file system operations, and automated execution built within isolated web containers. Integrated environment sandboxing mechanisms for secure execution boundaries and designed active websocket rooms for multiplayer collaboration. Tech Stack includes React, Node.js, Express, MongoDB, Socket.io, and Redis.

Education

BCA, Makhanlal Chaturvedi National University

CGPA: 8.2

Bhopal, MP

2022 – 2025
